<b>Description:</b>	<p>Hi,</p> <p>In the exported Excel files, the time billed column shows up wrongly.</p> <p>The original report Excel file from kayako displays time as eg. "15m0s"</p> <p>The sent Excel file from the Reports Emailing module displays this same time as "0,010416667"</p> <p>Is this something simple i've overlooked?</p> <p>Dennes</p>
