

## JIRA - Bug # 249: JIRA error Field `security` cannot be set

<b>Status:</b>	New	<b>Priority:</b>	High
<b>Author:</b>	Nick Cobley	<b>Category:</b>	
<b>Created:</b>	16 Jul 2013	<b>Assignee:</b>

<b>Subject:</b>	JIRA error Field `security` cannot be set		
<b>Description:</b>	<p>I'm having a problem creating issues in Jira for some, but not all projects. When you select the project from the create issue in jira screen, it comes up with a Security Level in the dropdown that no longer exists in our Jira install, in fact we don't have any issue security setup in Jira anymore. I'm in contact with Atlassian about this too, but as I've seen at least one other mention of this error in a comment on this issue <a href="http://forge.kayako.com/issues/156">http://forge.kayako.com/issues/156</a></p> <p>The error we get is:</p> <p>"JIRA Error Field 'security' cannot be set. It is not on the appropriate screen, or unknown."</p>
